The inside story from the recent race discrimination settlement, the impacts of racially discriminatory policing and how we can work together to end it.

Speakers include:

- **Peter Seidel**, Public Interest Law Partner Arnold Bloch Leibler
- **Daniel Haile-Michael**, Lead applicant in the case

In the second half of 2013, the Victorian public will be able to take part in a Victoria Police review that will examine policy on 'field contact' person checks and its cross-cultural training system.

This review provides an opportunity for police to implement training, policy and practice reforms to prevent racial bias and discrimination when dealing with Victoria's diverse communities.
